## Game Options:

Choose from one or more of the following or give us a call to develop a custom promotion to fit your needs.

### Pick & Win

**Pick \$X. Win \$Y. (ex: Pick \$1,000. Win \$1,000,000.)**

Just as the name says, contestants pick a predetermined number of electronic images (envelopes) on the game board. If they accumulate \$1,000, they win \$1,000,000 (or any other amount insured by Odds On's prize insurance). Or, they win what they accumulate. This game is easy to understand and allows you to fix your budget within tight parameters.

### Climb For Cash

This game is simple to run and easy for contestants to understand. Contestants are asked to choose 1 of 3 electronic images (envelopes) displayed on Level 1 of the e-game board. If they select the correct image they move up to the next level and repeat the process until they reach Level 10 and win the grand prize, paid for by Odds On. This game allows you to control your budget to the penny and guarantee winners at each level!

### Pick 'Til You Win

This game will build suspense and excitement by keeping your contestants picking for 5-10 minutes. Contestants pick electronic images (envelopes) on the game board to reveal three different prizes. Once they've collected five of the same prize, they walk away the winner of that prize. Grand prizes paid for by Odds On's contest insurance, of course! This is a great game to give away cash and/or prizes, such as cars, trips, and gifts.

### Add'em Up

**(Non-Insured)**

Use this game daily to maximize a limited budget and/or qualify contestants for a big weekend or grand finale promotion. Simply give contestants 2-5 picks, the software and LCD will add up their results, and announce what they have won.
